Some information about this image:

- The Bold text is the Title of the book in our system.
- Author is the last name of the first author listed on the textbook
- ISBN is unique to this exact package

- For this particular book it is list as “Choose One” which mean you only need to select one of the two options. (In this case both are the same item just one is an E-book and the other is a physical version)

-This textbook is only available in a “New” Format so the Used Option is greyed out. The professor only wants this book in a “New” Format so the price is not listed for the “Used” version of the book.

Below is a few examples of other listings you may see:
